NEW YORK

Prefatory Note

The ART INDEX is an index to domestic and foreign publications. Although primarily a periodical index, yearbooks and museum bulletins are included. The main body of the Index consists of subject and author entries to publication articles arranged in one alphabet. In addition there is an author listing of citations to book reviews following the main body of the Index. Subject areas indexed include archaeology, architecture, art history, city planning, crafts, fine arts, graphic arts, industrial design, interior design, landscape architecture, museology, photography and films, and related fields.

The Committee on Wilson Indexes of the American Library Association's Reference and Adult Services Division advises the publisher on indexing and editorial policy by means of in-depth contents studies conducted at intervals of several years. The Committee, as part of its study, prepares a list of periodicals representative of all subject areas included in the Index for consideration by the subscribers.

Selection of periodicals for indexing from this list is accomplished by subscriber vote. In voting their preferences subscribers are asked to place primary emphasis on the reference value of the periodicals under consideration. They are also asked to give particular consideration to subject balance in order to insure that no important field be overlooked in proportion to overall index coverage.

While the responsibility for all indexing and editorial decisions rests with The H. W. Wilson Company, every effort is made by the Company to follow the recommendations of the Committee and the subscribers to a given periodical index.

Suggestions for addition or deletion of titles should be brought to the attention of The H. W. Wilson Company, 950 University Avenue, Bronx,, N.Y. 10452.

Explanatory Notes

ARRANGEMENT

Author and subject entries are listed in one alphabet. No title entries are made. Divisions within major subject areas (such as ART) are filed in the following order (1) General subdivisions (Art—Themes), (2) Geographical subdivisions (ART—China), (3) Inverted headings (ART, Indonesian), (4) Phrase headings (ART and literature).

BOOK REVIEWS

Citations to book reviews are listed in a separate alphabet following the main body of the index. Some book reviews are also indexed under subject headings; their title is supplied with [review article].

HEADINGS

Corporate names used as headings are listed under various appropriate subject headings, e.g. ARCHITECTURAL firms and groups; DESIGN firms and groups; TEXTILE industry—United States.

ARTICLE TITLES

Supplied titles or parts of titles are enclosed in brackets.

ILLUSTRATIONS

Works of art (up to ten) are listed in a note after the artist entry when illustrations accompany an article. If illustrations of an artist exceed ten, they are not itemized, but their number is given in the entry, e.g. 25 il.

REFERENCES

See references lead from terms not used as headings to those under which entries are to be found. *See also* references lead to related subjects. Cross references are made to inverted headings from the uninverted form. For example, it is possible to find all headings divided by "Chinese", e.g. Chinese enamels. *See* Enamels, Chinese.

il(Giovanni): Adlerrelief (rechts) an der
Fontana Maggiore, Perugia; Die Pisaner
Domkanzel

Explanation

The first entry points to seventeen articles with bibliographic footnotes, illustrations, plans and diagrams on the subject of Architecture in Switzerland. These articles are collected under the title "Architektur in der Schweiz" in volume 12 of Archithese, pages 7-47 of the January/February 1982 issue.

The entries under Giovanni Pisano, whose dates can be approximately established, lead to reproductions of works by his hand or related to his style:

One of his reliefs at the pulpit of Sant'Andrea in Pistoia, executed between 1298 and 1301, is represented as a detail in Wallraf-Richartz Jahrbuch volume 43 of 1982 on page 84.

The reproductions of the head of a saint in marble, attributed to Giovanni Pisano, and of a Virgin and Child, also in marble, can be found in Gesta, volume 21 number 2 of 1982 on pages 148 and 149. The latter originates from the artistic circle influenced by Pisano.

The article, Johannes arte secundus? by Hans Körner, commenting on the inscription of the Ghent Altarpiece, draws attention to the joint activity of Giovanni Pisano and his father Nicola. This article, published in Pantheon volume 41, with reference to the Pisanos on pages 42 to 44 of the January/March issue of 1983, is illustrated with two of Giovanni's works.
